ESTONIAN WEATHER BULLETIN  
28 JULY - 18 AUGUST 1949

Sovetskaya Estoniya, No 176, 28 Jul 49

The weather throughout Estonia has been moderately warm and calm with varying cloudiness and local showers. Night temperature was 9-13 degrees, day temperature, 17-20 degrees.

A continuation of moderately warm weather with varying cloudiness, scattered showers, and light to moderate winds may be expected 28 - 29 July. Day temperature will be 18-22 degrees, night temperature 8-12 degrees.

Sovetskaya Estoniya, No 182, 4 Aug 49

The weather during the past 24 hours was cloudy, with steady rain throughout Estonia.

The long period of transitional weather with frequent, heavy rains has been caused by intense cyclonic activity in the atmosphere, which has spread over a vast region of western and eastern Europe. The cyclones originating over the North Atlantic move eastward with a velocity of 30-50 kilometers per hour, and, crossing the Baltic Sea, move in a north-east direction.

The weather will be partially clear on 4 August, with intermittent showers during the day. There will be moderate southwest and west winds. Beginning 5 - 6 August, dry and clear weather is expected. Night temperature will drop to 6-8 degrees.

SECRET

Sovetskaya Estoniya, No 186, 9 Aug 49

The weather throughout Estonia for 8 August was warm and dry with changing cloudiness and light south winds. Night temperature was 12-16 degrees; day temperature, 20-29 degrees. Warm weather with varying cloudiness will continue for the next 3 days. There will be light local showers with south to southeast winds. Day temperature will range from 20 to 24 degrees; night temperature, 12-16 degrees.

Sovetskaya Estoniya, No 187, 10 Aug 49

The weather during the past few days has been cloudy with clearing throughout Estonia with light rains during the day. Night temperature was 15-18 degrees; day temperature, 20-23 degrees.

All uyezds may expect a continuation of warm weather 10 - 12 August, with partial cloudiness during the day and complete clearing at night.

Sovetskaya Estoniya, No 189, 12 Aug 49

During the past day, the weather has been warm with varying cloudiness and light winds in all uyezds of Estonia.

On 12 - 14 August the weather will be partly cloudy with light to moderate west and southwest winds and local showers. Day temperature will be 19-23 degrees; night temperature, 10-14 degrees.

Sovetskaya Estoniya, No 190, 13 Aug 49

The night of 12 August was clear throughout Estonia. The weather during the day was cloudy with local showers and light winds. Night temperature in Kuziku, Tyuri, Valga, Purtse, and Narva was 6-7 degrees and at other points, 8-14 degrees.

All uyezds may expect calm dry weather with partial cloudiness during the day and complete cloudiness during the night of 13-14 August.

Sovetskaya Estoniya, No 191, 14 Aug 49

The weather in Estonia during the last 24 hours was slightly cloudy, calm, and dry. A few local showers fell during the day in the southern areas. Night temperature was 8-13 degrees; day temperature, 20-23 degrees.

Slightly cloudy, warm, and dry weather with light winds is expected on 14 August, with local fogs at night and in the morning. Day temperature will be 20-24 degrees; night temperature, 6-10 degrees.

SECRET **SECRET**

Sovetskaya Estoniya, No 193, 17 Aug 49

There has been moderately warm weather with considerable cloudiness for the past 24 hours throughout Estonia. There were general moderate rains during the morning and afternoon. Night temperature was from 10 to 15 degrees, and day temperature, 16-19 degrees. No substantial change in weather is expected for the next 3 days.

Sovetskaya Estoniya, No 194, 18 Aug 49

During the night of 16 August, considerable rain fell in Estonia and the wind became noticeably stronger. On the morning of 17 August and during the day the rain ceased and the weather cleared partially. During the night, about 20-21 millimeters of rain fell in Khaspsalu, Tallin, and Kyardla.

During the period from 18 to 20 August, varying cloudiness is expected, with clear nights. There will be local showers and gentle, northwest winds in the daytime, and moderate winds at night. Night temperature will be 4-6 degrees; day temperature, 16-20 degrees.
